

Winner of the 2023 Buddy Walk Art Contest

Sam Moyer Couples Creativity & Imagination with Light & Water

Sam Moyer enjoys expressing himself creatively, or as he says, doing "projects." One accessible medium Sam appreciates is cyanotype printmaking. Sam selects objects to use as the subject of his print and positions them onto light-sensitive paper. The print is then exposed to light and finally rinsed with water. Sam loves making these prints because he can independently use his imagination to make random designs or work with a theme. The **2023 Buddy Walk Art Contest** theme "ROCK THE WALK!" lent itself to rock music, another one of Sam's big interests. Sam has created nature themed cyanotypes using actual leaves combined with other found objects. Sam's Mom Deb shared, "Thank you CRDSS, for giving Sam the opportunity to use his creativity in an accessible way and helping him feel accomplished with his efforts."

Sam's Winning Design

Along with family & friends, the Buddy Walk has been an annual tradition for Sam Moyer. He even appeared in our 'Virtual Showcase' in 2020, singing along with Neil Diamond's 'Sweet Caroline' in Beaver Stadium, as well as with Dad Steve who was serving as the CRDSS Board President at the time. Everyone always counts on Sam's brightest smile at the walk's concluding medal ceremony. We are so proud of Sam's most recent accomplishment in bringing a unique and beautiful image to life for our 2023 Buddy Walk T-Shirt! Thank you Sam....and all the Moyer family & friends, for your endless dedication and passion for our community!
